

# Style BX

A well-balanced trunk  
from a beautiful posture.

Beautiful  
Posture

A new habit  
for beautiful posture  
that you can easily continue.

A well-  
balanced  
trunk

Tightened just enough for your comfort.

Just by wearing it, Style BX provides genuine posture care.

A uniquely designed Triple Link structure ensures comfort during wear  
as it leads you to maintaining a proper posture for your trunk.

Joint Development Partner

Professional Footballer  
Yuto Nagatomo

With exceptional speed and physical prowess, Nagatomo is a defender representing Japan. He pursues a rational conditioning program that includes trunk training and yoga.

For effective training, it's important to be conscious of a correct posture.

When playing soccer overseas, I need to build a firm body and a stable trunk to compete with the larger players. In addition, poor posture and trunk instability can lead to wasted movement, making it difficult to properly train my individual skills. Everyday, I work out to maintain a proper posture and stabilize my trunk, which is fundamental to all my training.

Make posture care a habit and stabilize your trunk with a beautiful posture.

In your everyday life, it's important to correct your posture. Your posture can suffer from your daily work or household chores. Poor posture is not only visually unflattering, but also results in the application of unnecessary pressure to your shoulders and hips. Style BX was developed to correct your posture and stabilize your trunk during the course of your everyday life. It can be worn beneath your clothes to naturally straighten your spine and maintain a proper posture to support a healthy and comfortable lifestyle.

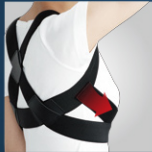

Triple Link structure  
for comfortably  
supporting your posture.

1 Posture support

The key point for posture correction is applying pressure on the thoracic vertebrae to expand the chest and help create an "S" curve line for the spine.

2 Prevents tightening of the sides

The belts under the arms shift forward to suppress any excessive tightening.

3 Balance adjustment

The intersection point of the belts slide to provide an equal balance of pressure.

A soft sensation  
on the skin that ensures  
hours of comfort during wear.

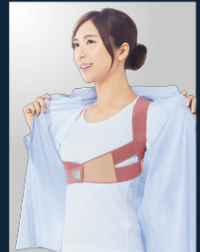

Stretch chevron pile fabric  
for a comfortable fit

Features a resilient pile fabric that produces an ideal balance of elasticity with cushioning.

The fabric fits a variety of physiques.

A lightweight, smooth fit  
structure that suppresses  
thickness and coarseness  
to achieve maximum  
wearer comfort

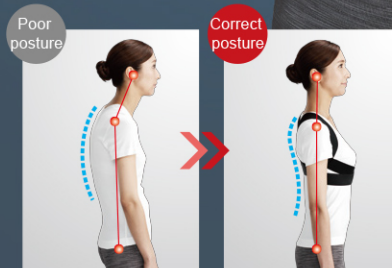

Produced from a single piece of fabric to realize a simple shape that keeps thickness in check.

Nearly imperceptible when worn with your inner wear, Style BX smoothly fits into your lifestyle.

Achieve an ideal body line  
by making proper posture  
a habit.

A unique "chest expansion" posture method supports your spine's adoption of an "S" curve line.

By thrusting out the chest, the bust line is naturally emphasized, producing the impression of a tighter waist.

Without Style BX

With Style BX

Pressure on the thoracic vertebrae  
is the key to a proper posture.

Just thrusting out your chest will not improve your posture. With a tendency to round outward, the thoracic spine requires a proper amount of pressure to help maintain the spine's beautiful "S" curve line. In turn, this helps to align the pelvis with the spine, leading to a correct posture.
